

# Web Queen Training

## WEBSITE CREATION COURSE

### LESSON 1 ASSIGNMENT

Complete the following tasks before you move on to the next lesson. If you have any questions, contact me.

- Create a folder just for this course.
  - Place your logo in the folder. If you don't have a logo yet, download one from the course resources.
  - Find 4 to 6 royalty-free photos that align with your brand/mission. Place them in your course folder. Use suggested sites for quality & safety (links in Course Resources).
- Complete the "Plan for Your Brand" activity.
- Find a responsive theme that you would like to use for your website. Install and activate it. Search for themes either within WordPress dashboard or online using the search phrase '2020 best free WordPress themes'.
- Verify that your site's settings are the way you'd like them to be.
  - General: Site Title, Tagline
  - Permalinks: Change this setting to post name.
- Create your 'coming soon' page following the guidelines you learned.
  - Install, activate and customize the Coming Soon & Maintenance Plugin by Niteo.
  - Add at least one CTA.
- Bonus Lessons (Under Course Resources on Course Agenda)
  - Design Tips from Erika #TheDesignDiva
  - Getting Domain & Hosting Services
  - How to Install WordPress

Optional tasks:

- Like the DesignDiva Studios Facebook Page.
- Add [icreate@designdivastudios.com](mailto:icreate@designdivastudios.com) to your address book so you don't miss anything.
- Email me at [icreate@designdivastudios.com](mailto:icreate@designdivastudios.com) if you have questions or have any feedback.

#### TIP FOR SUCCESS

Put all your online information and links in one place to make it easy for you to share all you do.

Some free and easy to use tools to accomplish this: [about.me](http://about.me) and <http://linktr.ee>. You can also use a landing page or the 'About' page on your website.

For example, I on my [about.me](http://about.me) page, I share my web & graphic sites, my blog, social media links and my modeling info.
